Think Before  
You Post

..

Keep It  
Professional

..

News Travels  
Fast

..

Videos Can  
Go Viral

Not as Temporary  
as You Think

..

One Share Can  
Become Many

..

Keep Photos Clean,  
Keep Content Safe

..

Once Online, It  
Lives Forever

---

## Avoid Oversharing

Think about how your information, photos, and geo-location data could be used by others. Once posted, it is on the Internet forever.

## Check Privacy Settings

These settings can be confusing and change often. Be safe: If you don't want your mom or boss to see it, don't post it.

## Enable Two-Step Verification

Two-Step Verification, also called Two-Factor Authentication, provides an extra layer of security to protect your social network accounts.

## If You See Something, Say Something

If you witness bullying or inappropriate content online, do not respond. Instead, report the incident immediately to the site so they can take action.
